### the second best thing

We're crazy about bamboo but for some, this doesn't scratch their itch. For them, we've gone to lengths to develop the plant-based Humble Brush that both looks and feels like a regular plastic toothbrush while reducing plastic waste by 45%. The handle is made using wheat starch as a key ingredient, and the bristles are made of high-quality, BPA-free Nylon with 65% plant-based materials from castor beans. We are working closely with our distributors in various markets to support local LGBTQ+ communities in the fight for good.
